

In recognition of our dynamic culture at GSC where change is a constant, we are pleased to bring you "Effectively Dealing with a Changing Workplace". This seminar was held at the GSC Concord campus on Wednesday, June 25th.

We hope this seminar will help you to gain a broader understanding of the change process and develop personal strategies for navigating changes in our workplace towards positive outcomes - both personally and professionally.

We were fortunate to have Peter Welch as our facilitator - an experienced Counselor and Wellness Educator who has over 24 years of experience in working with organizations on a range of issues including change management.
