

PreK/elementary teacher in China

Thank you for your interest in this position. Before we start, I want to be very clear about the parameters:

This is a one year position to teach children in China. The 15 satellite centers are spread out among Shanghai, Foshan and Changzhou. It is an international faculty, and placement depends on where there are openings.

You will be expected to bear the cost of the one way plane ticket to China and at the completion of your contracted year, you will be reimbursed up to \$800 towards the cost of that ticket. You will also be responsible for the visa cost, and the company will provide the necessary paperwork.

Your housing will either be provided or subsidized, depending on your location.

Finally, there may or may not be an immediate opening at the time you submit your paperwork. If there are no positions available, you may be asked to be on a "wait list" until an opening becomes available. The decision to be on a wait list is entirely up to you.

Interested candidates should email their resume to: cverrone@promiseforall.com
