

Granite State College

Bachelor of Science in Health Care Management

Degree Completion Pathway* - Curriculum Map

*Formerly known as Fast Track

Degree Outcomes

Students will:

- articulate and apply knowledge of systems, operations, and roles fundamental to effective health care administration in a variety of settings.
- employ and assess financial and information resources to enhance managerial decision-making and organizational performance.
- recognize the fundamental rights, ethical principles, and overarching policies that guide those who work in health care.
- develop and foster capacities for leadership, both in oneself and across organizational teams.
- explore how socio-cultural, familial, and individual perspectives influence the health care system and the diversity of experiences that comprise it.

HLTC 650	Integrative: Health Care Management		

Important Note: An associate degree from a regionally accredited college is required for admission to a Degree Completion Pathway. The earned associate degree must be in an allied health area, business, management, or a closely related field. Students can complete this program with a Fast Track option of two courses per term while still pursuing the degree at their own pace.

This document is provided for student convenience, and is not an official record of Granite State College degree progress.

Important Note: Transfer Credits, Exams, Prior Learning Credit, and grades earned will impact the above.
