1. Log into WebROCK. On the main menu, select the **Personal Information** link.

2. On the following menu, select the relevant link to update your personal information.

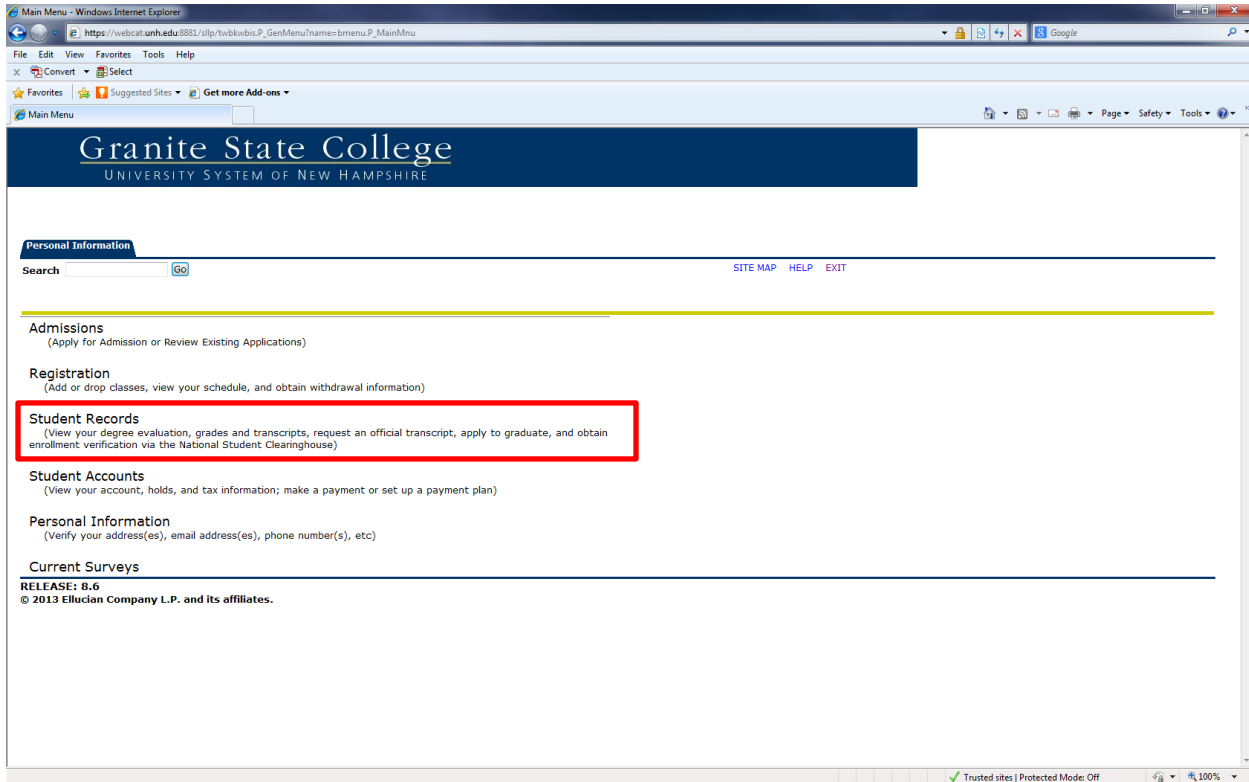

## How do I obtain enrollment verification for my student loans or an employer?

Enrollment data is sent each semester to the National Student Clearinghouse after the add/drop period for the semester. This information is available approximately one week after the end of the add/drop period. Students may log on to WebROCK and link to the Clearinghouse website to print enrollment certifications which can then be sent to organizations requesting verification. Students can also see electronic notifications that the Clearinghouse has sent to their lenders and may also link to real time student loan information to determine outstanding balances and when their next payment is due.

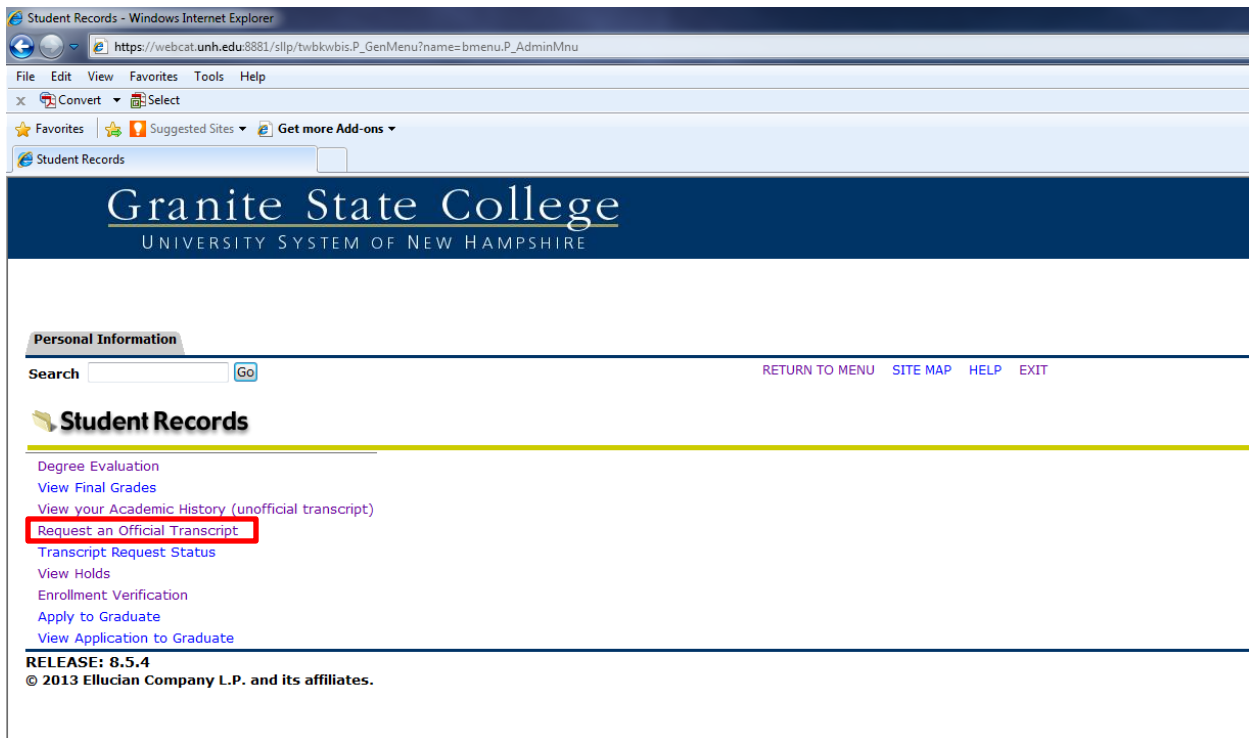

## How do I request a transcript?
